EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 2, 3, 10, 11, 14 and 15 are cancelled.

Election/Restrictions

2. This application is in condition for allowance except for the presence of claims 2, 3, 10, 11, 14 and 15 directed to species non-elected without traverse. Accordingly, claims 2, 3, 10, 11, 14 and 15 have been cancelled.

Allowable Subject Matter

3. Claims 1, 4-9, 12, 13 and 16 are allowed over the Prior Art of record.
4. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance of independent claims 1 and 13 are the inclusion of the specific limitations of an apparatus to measure volume wherein a partition chamber defining a sealed space disposed adjacent to a container including a partition plate for dividing the sealed space and an inner space of the container, in combination with an acoustic tube communicating with an additional

container containing an object whose volume is to be measured, as well as additionally recited elements in combination with the recited elements, as well as employing the specific method steps recited in claim 13. As to independent claims 9 and 16, the primary reasons for allowance is the inclusion an amplifier of a constant current driving type and the specific functional capability of a measuring device for measuring voltage of a voice coil associated with an electromotive-type speaker and a calculating device for calculating a volume of an object in a container based on the measured voltage, and the method steps recited in claim 16 in combination with the recited elements. None of the Prior Art teach these limitations regarding the measuring of the voltage from a speaker or a constant current amplifier.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant is invited to review PTO form 892 accompanying this Office Action listing Prior Art relevant to the instant invention cited by the Examiner.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Fitzgerald whose telephone number is (571) 272-2843.
